Dr Sukanya Mitra: Facilitator

Evaluation Report on Student PPT Presentations

Department of History, Semester 1 Minor, February 9, 2026

Course Name: MHIS MN1: History of India from earliest times upto 300 CE

Module III: The Harappan Civilization

The students were asked to make presentations on the less discussed sites of the Harappan Civilization such as Chanhu Daro, Moro Daro and Rakhigarhi. They mailed their presentations and spoke about them briefly in class. Each student reflected on why they chose the particular site and what new things they learnt about the place while making the PPTs. The students also soke about the generic as well as the specific features of the places that they chose to highlight. This exercise helped the students to delve deeper into the topic and find out more about the Harappan sites by themselves than mentioned in the class. It encouraged a spirit of inquiry and inculcated the habit of research and presenting information in a coherent manner.
